We, Pentex Ltd, have been working with one of our customers (a global brand) to understand and address our carbon emissions.

We, Pentex Ltd, commit to phasing out/moving away from coal for owned and contracted Tier 1 and Tier 2 manufacturing sites used for their product as soon as possible, and at the latest by 2030.

We, Pentex Ltd, have measured our Scope 3 Category 1 and Category 4 emissions covering their product and have set a greenhouse gas emissions reduction target for those emissions in line with version 1.2 of the SBTi Net Zero Standard, which supports the ambition of the Paris Agreement in limiting global temperature rise to 1.5 degrees Celsius above pre-industrial levels.

We will reduce our Scope 3 greenhouse gas emissions by 42% by 2030 from our baseline year of 2022.

Pentex Ltd has set a greenhouse gas emissions target covering our Scope 1 & 2 emissions in line with the latest criteria and recommendations of the SBTi which supports the ambition of the Paris Agreement in limiting global temperature rise to 1.5 degrees Celsius above pre-industrial levels.

We will reduce our greenhouse gas emissions by 45% by 2030 from our baseline year of 2022.

Pentex Ltd has been working with one of our customers, a global brand, to understand and address our Scope 3 emissions. We confirm that the Tier 1 and Tier 2 manufacturing sites we contract with have set greenhouse gas emissions reduction targets covering the manufacturing sites' Scope 1 & 2 emissions in line with the criteria and recommendations of the SBTi.
